CREDIT UNION

CardValet is your first line of defense against card fraud. In fact, we believe in CardValet so strongly, we pay for you to use it for free! It's a must for every member with a Credit or Debit Card.

CardValet lets you:

- Turn your Debit and Credit Cards off with a few taps of your smartphone if they are lost or stolen. Turn them back on just as easily.
- Receive real-time alerts when your debit or credit card is used, approved, or exceeds the transaction controls set by you.
- Restrict transactions to a certain area using your phone's GPS. All in-store transactions will generate an immediate alert if your device and merchant locations do not match.
- Stay informed of potential fraud with alerts on attempted, declined transactions.
- Establish transaction controls for dollar amount limits, merchant categories and geographic locations.

"CardValet sent me an alert about multiple transactions on my card. I was not familiar with these transactions and was immediately able to log into CardValet and block my card. The fraud hits could have been worse without CardValet."

-Shelly, Fibre Federal member
